CHARACTERISTICS	
STATE DETAIL	
GLOSSARY	

The UI Data Summary is produced quarterly in the Unemployment Insurance Data Base from outside sources (e.g., Bureau of Labor unemployment and U.S. Department of activities). This data base is maintained by the Unemployment Insurance Service (UIS),

This report is intended to provide the user of the UI system at the national and state level and many data items are repeated for all states together. The glossary at the back of the report explains each data item in the report. Except for the items which have a long reporting/processing time, the latest quarter is shown on the front page heading on each individual state page. For example, the notation CYyy.q (e.g., CY87.4). For example, in addition to the latest quarter -- data for the highest and lowest quarters historically, and so on. If a state has failed to report for a particular quarter, it is used.

Your comments and suggestions are welcome.

- o The national average seasonally-adjusted unemployment rate fell to 4.7% in the third quarter, 5.3% and 2.3%, respectively.
- o Most indicators of UI activity continued to decline in the same quarter last year.
- o The 12-month average duration increased to 18.2 weeks, up from 17.6 weeks a year ago, a decline of decline.
- o Despite increasing benefit payments, the replacement rate, percent of wages was higher than last year, 60.1% vs. 59.1% of benefits (measured by current benefits).

	employed or unemployed in the week of the 12th for the three months of the quarter.
COVERED EMPLOYMENT	The average number of workers in jobs covered by UI.
EXHAUSTION	A claimant who has drawn the final payment of his/her original entitlement for a given program.
EXHAUSTION RATE	A rate computed by dividing the average monthly exhaustions by the average monthly first payments (see below). To allow for the normal flow of claimants through the program, the numerator lags the denominator by 26 weeks, e.g., the exhaustion rate for CY89.3 is computed by dividing the average monthly exhaustions for the twelve months ending September 1989, by the average monthly first payments for the twelve months ending March 1989.
EXTENDED BENEFITS (EB)	The supplemental program that pays extended compensation during periods of specified high unemployment in a state to individuals for weeks of unemployment after exhaustion of regular UI benefits. One-half of EB is funded by state trust fund.
FIRST PAYMENTS	The first payment for a week of unemployment claimed under a specific program. This is used as a proxy for "beneficiaries" under a specific program.
HIGH-COST MULTIPLE	"TF as % of Total Wages" divided by the High Cost Rate. The High Cost Rate is the highest historical ratio of benefits to wages for a 12-month period.

compensation or (2) to begin a second or subsequent period of eligibility within a benefit year or period of eligibility.

INSURED UNEMPLOYED

The average number of weeks claimed in the week of the 12th for the three months of the quarter.

INSURED UNEMPLOYMENT
RATE (IUR)

The rate computed by dividing Insured Unemployed for the current quarter by Covered Employment for the first four of the last six completed quarters.

LOANS

Advances acquired by the state under Title XII of the Social Security Act. Loans to the state prior to April 1982 are interest-free.

POSITIVE NET BALANCE

The Unemployment Trust Fund balance exceeds the total loan balance.

RANK

All rankings are from highest to lowest for a particular item. Ties receive the same rank.

REGULAR BENEFITS

The benefits paid to individuals under a state program, usually the first 26 weeks of benefits.

STATE REVENUE

Funds deposited in state accounts in the Unemployment Trust Fund (UTF). These revenues are used to pay state UI benefits and the state share of EB.

SA/NSA

Symbols used to indicate whether data has been seasonally adjusted (SA) or not seasonally adjusted (NSA).

to a new job within 30 days.

TOTAL UNEMPLOYMENT
RATE (TUR)

The rate computed by dividing Total Unemployed by the Civilian Labor Force.

TOTAL WAGES

All wages or remuneration paid to workers on all payrolls covered by unemployment insurance.

TRUST FUND (TF)

The individual state account in the Unemployment Trust Fund. The reserves available to a state to pay benefits. The "months of benefits" shown represent the number of months benefits could be paid if benefit payouts continued at their most recent levels and there were no additional funds collected.

UNEMPLOYMENT TRUST
FUND (UTF)

A fund established in the Treasury of the United States which contains all monies deposited by state agencies to the credit of their unemployment fund accounts and Federal unemployment taxes collected by the Internal Revenue Service.

WEEKS CLAIMED

The number of weeks of benefits claimed, including weeks for which a waiting period or fixed disqualification period is being served. Interstate claims are counted in the state of residence.

WEEKS COMPENSATED

The number of weeks claimed for which UI benefits are paid. Interstate claims are counted in the paying state.
